

Memo

I choose this essay for an example of a writing assignment because it is the only writing paper we are doing in my only non-literature English class. I enjoyed writing this paper because it was based on a specific model of argumentation; the Toulmin Model. I turned this paper in near the due date for this portfolio so I didn't receive a copy back with notes on it from Dr. Johnson-Gerendes. I initially struggled with the research and topic but once I started writing the paper took a surprisingly short amount of time.
